

## **Construction Site Sign Standard**

(Updated: 1/25/10)

The project sign shall be a 4'x8' MDO plywood panel with a Yale Blue\* background and white vinyl lettering per the University Printer's specifications. Depending on the construction site, the sign shall be pole-mounted on two 4"x4" wood posts or mounted directly to the construction fencing. The posts and the rear side of the sign shall be painted Yale Blue.

**The final fabrication file is prepared by University Printer John Gambell (as an eps outline file); see procedure below.**

- PM inserts project text into draft Word sign document and sends to UPr.
- UPr reviews text and sends draft pdf fabrication file to PM, with comments, for review.
- PM sends corrections to UPr.
- UPr sends final eps fabrication file to PM.
- PM and CM determine whether a pole-mounted or fence-mounted sign is needed.
- PM sends final eps fabrication file to CM, with color and mounting specifications, for bidding to sign companies.
- CM oversees installation by sign company.

PM: Yale Project Manager

UPr: University Printer; John Gambell

CM: Construction Manager

**\* Please note that the sign company will need to be provided with specifications re: Yale Blue. The sign company may be required to provide UPr with a sample of Yale Blue before proceeding with sign fabrication.**
